Write-Off Equipment Purchases in 2019! IRS Section 179 up to \$1,000,000

Business Equipment

Business owners who acquire Imaging equipment for their business usually prefer to deduct the whole cost in a single tax year, rather than a little bit at a time over several years. This deduction is known by its section in the tax code, as a Section 179 deduction.

Under Section 179, businesses may write-off 100% of their equipment purchases this year!
(companies cannot write off more than their taxable income-net profit)

Must purchase the equipment before the end of the year

It doesn't matter how businesses pay for this equipment; whether paying cash, loan, a Capital Lease (with a \$1.00 Buyout) or an Equipment Finance Agreement (EFA), however the **tax savings** could be significant. In addition, business may depreciate any excess (over \$1,000,000) on their depreciation schedule for the equipment purchased this year.

Example: Equipment Cost

Tax Savings Assuming Rate of 30%:
($\$100,000 \times .30 = \$30,000$)

Net Cost after Tax Savings:
($\$100,000 - \$30,000 = \$70,000$)

Note:

For complete details, or changes to the tax incentives, please visit www.section179.org or contact the IRS helpline at: **800-829-4933**

Act Now!

To take advantage of the incentives and the substantial tax savings, your business equipment should be installed by year-end. Please contact your tax advisor to learn about specific impact to your business.
